

# Special Issue

## Advances of Protein Bioinformatics

### Message from the Guest Editors

This Special Issue, entitled “Advances in Protein Bioinformatics”, aims to address key issues in protein bioinformatics and to highlight recent advances that can successfully complement the results obtained using traditional laboratory (“wet”) methods. The Editors seek high-quality works focusing on the latest applications of algorithmic methods, data-driven techniques, artificial intelligence, and deep learning for the analysis of the structure and function of proteins and protein interaction networks. Potential topics include, but are not limited to:

- advances in the graphical visualization of proteins;
- cloud computing and big data technologies for accelerated similarity searches;
- improvements in traditional algorithmic techniques, such as heuristic algorithms, approximate algorithms, and graph algorithms, for solving protein bioinformatics problems;
- prediction of antibody neutralization sensitivity by a glycoprotein structure;
- deep-learning-based frameworks for studying protein–RNA interactions; and
- other applications of deep learning in protein bioinformatics.

### Guest Editors

Prof. Dr. Catalin Buiu

Department of Automatic Control and Systems Engineering, Politehnica University of Bucharest, 060042 Bucharest, Romania

Prof. Dr. Mihai V. Putz

1. Laboratory of Structural and Computational Physical-Chemistry for Nanosciences and QSAR, Biology-Chemistry Department, West University of Timisoara, Str. Pestalozzi 16, 300115 Timisoara, Romania  
2. Laboratory of Renewable Energies-Photovoltaics, R&D National Institute for Electrochemistry and Condensed Matter—INCEMC—Timisoara, Str. Dr. Aurel Poddeanu 144, 300569 Timișoara, Romania

### Deadline for manuscript submissions

closed (31 October 2021)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
