

Special Issue

Design, Development and Biomedical Applications of Proteins and Enzymes

Message from the Guest Editors

This Special Issue on “Design, Development and Biomedical Applications of Proteins and Enzymes” seeks high-quality original contributions (experiments, theory, and modeling) and review articles. The scope of the Issue covers the design, development and biomedical applications of proteins and enzymes. The manuscripts can have aspects of engineered proteins, novel delivery mechanisms, and an improved fundamental understanding backed by comprehensive data. This Special Issue wants to draw the attention of the industrial and academic community to the latest developments in the field of proteins and enzymes application on drug, fragrance release, textiles, medicine and cosmetics and so on.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
