

Special Issue

Carbon Nanocomposites Synthesis and Applications

Message from the Guest Editors

This Special Issue aims to highlight and discuss the use of carbon nanomaterials for detecting pollutants through different types of adsorbents and/or devices built with these materials.

- developing new carbon nanocomposites as promising adsorbents in determining metals and/or emerging pollutants
- development of new extraction and preconcentration methods
- new design, engineering, and characterization of carbon materials as adsorbents and/or electrodes for determining diverse pollutants
- new design engineering of new sensors
- new approaches to sample pretreatment
- spectrometric, voltammetric, and chromatographic determination

Guest Editors

Dr. Marcela Zanetti Corazza

Dr. Adriana Evaristo De Carvalho

Dr. Willyam Róger Padilha Barros

Deadline for manuscript submissions

closed (30 June 2025)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
