# Modeling Sustainable Processes—Aiming Towards Decarbonization in the Era of Artificial Intelligence

### Message from the Guest Editors

The [MaCKiE](#) conference offers a vital platform at this intersection of modeling, computation, and the knowledge economy. In the context of decarbonization, MaCKiE brings together researchers, industry leaders, and policymakers to share innovations, frameworks, and real-world applications that advance AI-driven sustainability. This Special Issue will support [MaCKiE 2025](#) and welcomes studies on sustainable processes that we can achieve through decarbonization in the era of artificial intelligence.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
