Application of Machine Learning in Geo-Energy Exploration Processes

Message from the Guest Editor

This Special Issue on the “Application of Machine Learning in Geo-Energy” seeks high-quality work focusing on using ML as an important component of geo-energy exploration, development, and monitoring, or that presents the development of new and better ML models. Topics include, but are not limited to, the following:

- Intelligent resource exploration;
- Intelligent reservoir characterization;
- Development optimization;
- Energy transformation technology;
- Environmental monitoring;
- Interdisciplinary data fusion;
- Extraterrestrial energy system.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
