

## Special Issue

# Recent Advances in Protein Separation and Purification Methods

### Message from the Guest Editor

This Special Issue on “Recent Advances on Protein Separation and Purification Methods” aims to explore the innovative advances in the development and application of modern bioseparation and purification techniques, process design optimization, as well as artificial intelligence methods in successful protein purification process design. Topics include but are not limited to:

- Modern techniques for the protein separation and purification;
- Concepts and methodologies in optimizing protein separation and purification process design;
- Applications of artificial intelligence in protein process development;

### Guest Editor

Prof. Dr. Yesong Gu

Department of Chemical and Materials Engineering, Tunghai University,  
Taichung City 40704, Taiwan

### Deadline for manuscript submissions

closed (30 September 2022)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
