

Special Issue

Feature Review Papers in Advanced Process Systems Engineering

Message from the Guest Editor

This Special Issue is designed to publish high-quality review papers in *Processes*. The issue will highlight a diverse set of topics related to process and systems technology for chemical, biology, materials, biochemical, pharmaceutical, and biomedical applications. The scope of this Special Issue includes but is not limited to chemical and biochemical processes; cellular systems; material manufacturing; and systems modeling, simulation, optimization, and control. We are particularly interested in receiving manuscripts that review experimental and theoretical/computational studies as well as contributions from the industry.

- chemical systems
- biological systems
- materials processes
- green processes
- pharmaceutical processes
- food processes
- energy systems
- process control and supervision
- manufacturing processes
- advanced digital and other processes

Guest Editor

Prof. Dr. Giancarlo Cravotto

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
