Special Issue

Advances in Food Processing Techniques and Nutritional Analysis

Message from the Guest Editor

The food industry is continually evolving, driven by advances in technology, consumer demands, and an increasing focus on health and sustainability. This Special Issue aims to highlight the latest developments in food processing techniques and their impact on nutritional analysis, quality, safety, and overall consumer acceptability. Topics of interest may include, but are not limited to, the following:

- Innovative Food Processing Techniques
- Nutritional Analysis Methods
- Impact of Processing on Food Quality
- Health and Functional Foods
- Sustainability in Food Processing

This Special Issue seeks to provide a platform for knowledge exchange between researchers and practitioners in the fields of food science, nutrition, and technology. By highlighting recent advancements, we aim to promote collaboration and inspire future innovations that will enhance food quality and nutritional value.

Guest Editor

Dr. Elisavet Bouloumpasi

Department of Agricultural Biotechnology and Oenology, Democritus University of Thrace, 1st Km Dramas-Mikrohoriou, GR-66100 Drama, Greece

Deadline for manuscript submissions

31 January 2026

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
