

Special Issue

Advances in Carbon Materials' Thermal Analysis

Message from the Guest Editors

- Proximal analysis evaluations
- Differentiation of mineral carbons
- Characterization of carbon nanotubes (CNTs) and graphenes
- Studies on turbostratic carbon
- Charcoal performance
- Pyrolysis of carbons
- Thermoanalysis of hybrid compounds and functional materials
- Environmental studies related to carbonaceous materials
- Methodological advances in thermoanalysis

This Special Issue could foster a multidisciplinary approach in the fields of energy, environment, and advanced materials, providing a platform for the exchange of research and discoveries related to carbonaceous materials.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy
