

Special Issue

Recent Advances in Environment and Energy Related Processes in Offshore Geotechnical Engineering

Message from the Guest Editors

Contributors are encouraged to submit papers that delve into areas such as the development of renewable marine energy; structure–environment interactions; environmental geomechanics; multiphase, multiprocess simulation for offshore engineering; and innovative solutions for offshore geotechnics.

Manuscripts that present novel numerical models, experimental setups, or case studies that provide insights into aspects of the environmental and energy processes of offshore geotechnical engineering are particularly welcome. Key Words:

- offshore geotechnical engineering
- environmental geomechanics
- energy geomechanics
- wind turbine foundations
- structure–environment interaction
- ocean engineering
- offshore energy engineering
- offshore environmental engineering
- offshore mining
- island and reef engineering

Guest Editors

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
