

Special Issue

Design for Sustainable Behaviour: Resource Efficiency and Valuable Waste Recovery

Message from the Guest Editor

Papers accepted for publication in this Special Issue should contain novel, high-quality research. The purpose of the Special Issue is to collect manuscripts that describe the latest achievements in the field of waste management and upcycling industrial wastes in concrete. The Special Issue will be prepared in such a way that will allow the literature to be supplemented with a lot of new content and create a platform for the exchange of experiences between scientists dealing with environmental protection and concrete industry.

Guest Editor

Dr. Hamed Allahyari

Department of Civil Engineering, Monash University, Melbourne, VIC 3800, Australia

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
