

Special Issue

Advances in Chemical Characterization, Pharmacological Applications and Synthetic Biology of Natural Products

Message from the Guest Editor

This Special Issue will include original research and reviews related to recent advances in chemical characterization, pharmacological applications and synthetic biology of natural products. Papers may address the construction of engineered microorganisms using synthetic biology approaches, structural elucidation and green preparation of bioactive substances and their role in the treatment of chronic diseases. Keywords:

- natural products
- synthetic biology
- bioactive components
- green manufacturing
- therapeutic effect
- pharmacology
- chronic diseases
- medicinal plants
- microalgae
- engineered microorganisms

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
