

Special Issue

Advances in Green Extraction Processes of Bioactive Compounds

Message from the Guest Editors

This Special Issue on “Advances in Green Extraction Processes of Bioactive Compounds” aims to bring together novel advances in green extraction processes, and to evaluate the bioactive compounds from plant resources and by-products, as well as analyzing the use of plants in the development of new products with a sustainable approach. Topics can include, but are not limited to:

- Novel and ecofriendly processes for the recovery of valuable bioactive compounds;
- The chemical and functional characterization of bioactive compounds in different systems;
- Nutraceuticals, functional foods, and dietary supplements related to green extraction processes;
- The development of new herbal drugs;
- The use and application of bioactive compounds from plant materials;
- Agrobiodiversity management through appropriate strategies of plant exploitation.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
