

Special Issue

Green Chemistry: Latest Developments, Advancements and Future Prospects

Message from the Guest Editors

This Special Issue will provide a comprehensive overview of the latest developments, advancements, and future prospects in the field of green chemistry, a revolutionary field that addresses both technological and social/humanitarian challenges. It is a constantly evolving research field that has the potential to successfully solve current and future difficulties involved in daily living. This Special Issue will cover diverse topics, including, but not limited to, the following:

- Benign synthesis routes;
- Green catalysis;
- Alternative solvents;
- Renewable and green raw materials;
- Green chemistry for energy;
- Clean processes;
- Green chemistry education;
- Sustainable polymers.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto
