Selected Papers from the 8th International Conference on Trends in Agricultural Engineering (TAE 2022)

Message from the Guest Editor

TAE 2022 presented research in engineering and physical sciences that advances our understanding or ability to model the performance of biological and physical systems, bioproduction processes and the food chain, logistics systems in agriculture, manufacturing, and material systems in the design of agriculture engineering. All researchers are welcome to join this event and share their findings around the following general and related themes including, but not limited to:

- Agricultural engineering
- Automation technology
- Biosystem engineering
- Energy and renewable energy
- Engineering technology
- Mechanics and material science
- Production engineering
- Vehicles and logistics
- Related topic

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
