

Special Issue

Innovations in Food Processing and Preservation Methods

Message from the Guest Editor

Topics include but are not limited to applications in the following areas:

- New methods for extending the shelf life of food products;
- Techniques for improving the nutritional value, texture, and overall quality of food;
- Techniques for limiting microbial contamination;
- Optimization of food processing by using cost-effective methods;
- Natural preservation methods and alternatives to artificial preservatives;
- Advancements in packaging technology;
- The future of food preservation and processing;
- The impact of food preservation and processing on food safety and quality;
- Innovations in food processing equipment, machinery, and energy conservation ;
- The role of biotechnology in food processing and preservation;
- The use of sensors and automation in food processing and preservation.

Guest Editor

Dr. Jean-Claude Assaf

Department of Chemical and Petrochemical Engineering, Lebanese University (ULFG) & Saint Joseph University (ESIB), Beirut, Lebanon

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
