

Special Issue

Analysis, Design and Industrial Application of Intelligent Control Systems

Message from the Guest Editors

This Special Issue invites contributions that address these challenges and showcases the latest real-world applications and enabling advancements in the analysis and design of Intelligent Control systems (ICS) in industrial settings, e.g., systems, biomedical systems and assisted living technologies. We invite novel research contributions that are based on (but not limited to) the following topics:

- Analysis and design of ICS;
- Security;
- Privacy;
- ICS technologies;
- Applications of cyber physical systems;
- ICS laws and regulations;
- ICS sectors;
- Industry 4.0;
- IoT ecosystems.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
