

## Special Issue

# Molecular Dynamics, Numerical Simulation and Integrated Method to Study Materials Processing and Manufacturing

### Message from the Guest Editors

This Special Issue focuses on advancements in both individual and integrated simulation techniques, addressing topics like the study of phase transitions, defect dynamics, microstructure evolution and material property predictions under extreme conditions. Additionally, this issue explores the synergy between molecular dynamics simulations, continuum models, finite element methods and other computational tools, highlighting the value of these integrated approaches in developing a more complete understanding of materials behavior in real-world manufacturing environments. In this Special Issue, original research articles and reviews are welcome. Topics of interest include, but are not limited to, the following research areas:

- Atomistic and mesoscale modeling;
- Computational materials science;
- Advanced manufacturing simulations;
- Tribology and surface engineering;
- Metal forming and machining;
- Polymer and composite material processing;
- Heat treatment and phase transformations;
- Nanomaterials and nanomanufacturing.

---

### Guest Editors

Prof. Dr. Yusheng Dou

Department of Chemistry and Physical Sciences, Nicholls State University, P.O. Box 2022, Thibodaux, LA 70310, USA

Prof. Dr. Shuai Yuan

School of Advanced Manufacturing Engineering, Chongqing University of Posts and Telecommunications, Chongqing 400065, China

---

### Deadline for manuscript submissions

31 August 2026

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
