Innovative Treatments for the Improvement of Bioremediation Processes

Message from the Guest Editor

This Special Issue on "Innovative Treatments for the Improvement of Bioremediation Processes" seeks high-quality research and case studies focusing on developing and applying novel bioremediation strategies. Topics include but are not limited to:

- Identification and characterization of novel degrading metabolic pathways;
- Development of novel bioremediation treatments, modifying existing biocatalysts (e.g., microorganism(s), enzyme(s));
- Development of hybrid bioremediation systems coupling chemical and biological strategies, optimizing the activity of existing biocatalysts (e.g., plant, microorganism(s), enzyme(s)).

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy
