

Special Issue

Recent Advances in Sustainable Polymer Manufacturing Processes

Message from the Guest Editors

This Special Issue seeks high-quality contributions in sustainable polymer manufacturing processes. We welcome the submission of studies highlighting the recent advances in the above-mentioned areas, including both experiments and modelling work. Topics include, but are not limited to:

- Formulation and process design for sustainable polymer materials, including biodegradable and biocompatible plastics.
- Process innovation in polymer recycling and upcycling.
- Life-cycle analysis (LCA) and techno-economic analysis (TEA) of sustainable polymer manufacturing processes.
- Modelling of the circular plastics economy.
- Sustainable and/or green design and development of plastics manufacturing processes.

Guest Editors

Dr. Li Xi

Dr. Roozbeh Mafi

Dr. Jumiaty Wu

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
