## Special Issue

# Control and Intelligent Management of Energy Storage Systems

### Message from the Guest Editors

This Special Issue aims to establish a platform for the most recent technologies related to the analyses, management and control of energy storage system. This Special Issue welcomes reviews and technical studies on intelligent management and control of energy storage system. Potential topics include, but are not limited to:

- modeling and estimation
- early warning of failures and thermal runaways
- cell balancing strategies
- heating and cooling technology
- extreme fast charging technology
- battery aging and life prediction
- artificial intelligence for energy storage system.

### Guest Editors

Dr. Chun Wang

Prof. Dr. Aihua Tang

Prof. Dr. Yongzhi Zhang

### Deadline for manuscript submissions

# About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto
Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

### Author Benefits

**Open Access:**
free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:**
indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

**Journal Rank:**
CiteScore - Q2 (Chemical Engineering (miscellaneous))
