

## Special Issue

# Advances in Solid Waste Treatment and Design (2nd Edition)

### Message from the Guest Editor

This Special Issue "Advances in Solid Waste Treatment and Design (2nd Edition)" aims to provide comprehensive coverage of all aspects related to solid waste treatment and design. A wide range of research into separation, physical/chemical treatment, thermal treatment, bio-treatment, resource recycling, and landfill operations of waste materials will be covered. High-quality research articles on the various aspects of waste treatment technology and management will be brought together, covering both the current status and the remaining challenges. Suitable topics for this Special Issue include, but are not limited to, the following:

- Zero waste and resource recycling;
- Solid waste minimization, separation, treatment, and disposal;
- Waste management markets and policies.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
