

Special Issue

Green Adsorbents for Water Purification

Message from the Guest Editors

This Special Issue seeks to highlight cutting-edge research and reviews on pollutant removal from water systems. We encourage submissions of papers that explore new sorbents, their structural and chemical properties, and the enhancement of sorption efficiency. Researchers are encouraged to contribute studies that delve into innovative adsorbents that enhance adsorption capacity and selectivity, the adsorption mechanisms, and computational modeling for property optimization. Contributions that integrate multiple treatment strategies or propose new adsorption pathways are especially welcome.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
