Study on Heat and Mass Transfer Processes by Physical Adsorption

Message from the Guest Editors

This Special Issue entitled "Study on Heat and Mass Transfer Processes by Physical Adsorption" seeks high-quality studies focusing on mathematical models of heat and mass transfer processes by physical adsorption. Topics include, but are not limited to:

- Heat and mass transfer processes by physical adsorption;
- Effects of nanoparticle adsorption on heat transfer;
- Role of physical adsorption on nanoparticle stabilization:
- Absorption in different based nanofluids.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
