# Circular Economy on Production Processes and Systems Engineering

## Message from the Guest Editors

The circular economy reshapes production to be more sustainable, resource-efficient, and waste-friendly, fostering long-term economic, environmental, and social benefits. It stimulates innovation, reduces costs, and promotes a shift towards sustainability in both production and consumption. In the current Special Issue, titled "Circular Economy on Production Processes and Systems Engineering", we invite researchers to contribute their recent scientific works on this topic.

# About the Journal

# Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
