

## Special Issue

# Process and Modelling of Renewable and Sustainable Energy Sources

### Message from the Guest Editors

This Special Issue on “Process and Modelling of Renewable and Sustainable Energy Sources” aims to cover recent advances in the modelling, analysis, and optimisation of renewable energy and the power system with a high proportion being renewable. Topics include, but are not limited to, methods and/or the application in the following areas:

- Modelling of renewable and sustainable energy.
- Analysis of the integration process of renewable.
- Low-carbon operation of power systems.
- Power system planning towards the low-carbon
- Carbon reduction method for the power system.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
