

## Special Issue

# Advances in the Application of Biotechnology in Environmental Remediation

### Message from the Guest Editors

Biotechnology offers a promising path for sustainable environmental remediation to mitigate the impacts of contaminants, restore the ecological balance of our environment and preserve biodiversity.

Biotechnological processes using plants and microorganisms have demonstrated promising results in efficiently remediating and restoring the environment in an eco-friendly manner. This Special Issue, titled "Advances in the Application of Biotechnology in Environmental Remediation", welcomes contributions that explore innovative techniques, along with interdisciplinary research and real-world applications that showcase the transformative potential of biotechnology. Topics of interest include the following: development and optimization of bioremediation processes for soil, water, and air pollution; genetic engineering and synthetic biology for enhanced pollutant degradation; phytoremediation and the role of plant-microorganism interactions in environmental restoration; surfactants and biosurfactants for helping environmental remediation; socio-economic and environmental benefits of biotechnological interventions.

### Guest Editors

Prof. Dr. Mouna Fahr

Department of Biology, Faculty of Sciences, Mohammed V University in Rabat, Rabat 10000, Morocco

Prof. Dr. Abdelaziz Smouni

Department of Biology, Faculty of Sciences, Mohammed V University in Rabat, Rabat 10000, Morocco

### Deadline for manuscript submissions

31 August 2025

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
