

## Special Issue

# Microbial Biofilms: Latest Advances and Prospects

### Message from the Guest Editors

This Special Issue aims to compile cutting-edge research on the latest advances and future prospects in the study of microbial biofilms. We invite submissions that explore innovative detection methods, novel anti-biofilm strategies, and advanced imaging techniques. Additionally, we seek contributions that investigate the ecological roles of biofilms and their applications in biotechnology. Our goal is to highlight emerging technologies and approaches that can effectively manage biofilm-related problems and leverage their potential benefits. We hope this Special Issue will provide valuable insights and foster the development of new solutions to control and utilize microbial biofilms in various fields

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
