

Special Issue

Novel Biosynthesis of Natural Products and Their Biotechnological Applications

Message from the Guest Editors

This Special Issue aims to spotlight the latest advancements in the biosynthesis of natural products and their diverse biotechnological applications. We welcome high-quality research focused on the development of innovative processes and technologies for the production of bioproducts derived from natural sources. Potential topics include but are not limited to the following:

- Natural products;
- The chemistry and isolation of bioactive compounds from natural products;
- Extremophile biotechnology;
- Plant biotechnology;
- Innovative bioactive formulations;
- Biotechnological applications;
- Biomaterials;
- Natural and synthetic biopolymers.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
