

Special Issue

Material Characterization for Mechanical Behavior Predictions of Composite Materials and Structures

Message from the Guest Editor

The aim of this Special Issue is to encourage researchers to publish the state-of-the-art, experimental, and/or theoretical methods that can determine the actual material constants of different types of composite materials and/or predict the actual mechanical behaviors of composite structures/MEMSs.

Guest Editor

Prof. Dr. Tai-Yan Kam

Mechanical Engineering Department, National Yang Ming Chiao Tung University, Hsin Chu 300, Taiwan

Deadline for manuscript submissions

closed (30 January 2025)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
