Application of Artificial Intelligence in Medical Assisted Decision System

Message from the Guest Editor

This Special Issue on the “Application of Artificial Intelligence in Medical Assisted Decision System” aims to introduce the application of AI technology in the medical field. The adoption of AI in smart medicine still faces challenges. Topics include but are not limited to:

- Intelligent recognition and analysis of medical images;
- Intelligent auxiliary diagnosis of disease;
- Medical robot;
- Research and development of drug intelligence;
- Intelligent health management;
- Unstructured medical data analysis;
- Intelligent discovery and development of genetic medicine.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
