Recent Advances in Techniques for Hydrophilic and Hydrophobic Bioactive Compound Extraction

Message from the Guest Editors

This Special Issue on “Recent Advances in Techniques for Hydrophilic and Hydrophobic Bioactive Compounds Extraction” seeks high-quality papers focusing on the latest achievements on, but not limited to, the following topics:

- Selection of tailor-made greener solvents targeted to specific BAM extraction;
- Application of advanced methods aiming to increase the yield and efficiency of extraction and to modulate the chemical composition of BAM extracts;
- Modeling, optimization, and scale-up of advanced BAM extraction techniques.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
