

## Special Issue

# Anammox-Based Processes for Wastewater Treatment

### Message from the Guest Editors

This Special Issue will focus on anammox-based processes for wastewater treatment. We welcome novel research, review, and opinion pieces covering all related topics, including:

- Development of new anammox-based solutions and application to wastewater treatment
- Integrated process design, scale-up and full-scale case studies
- Process modelling, simulation, optimization and control
- Process biochemistry, molecular biology and use of omic techniques
- Gaseous emissions
- Sustainability and life cycle assessment

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
