

Special Issue

Modeling, Control, and Optimization of Batch and Batch-Like Processes

Message from the Guest Editors

This Special Issue will focus on the modeling, control, optimization, and design of batch and batch-like processes. Papers that focus on theoretical aspects, complex simulation case studies, or experimental or industrial applications are welcome.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
