Bio-Chemical Production Processes of Bioactive Natural Products

Message from the Guest Editor

This special issue on “Processes of Bio-Chemical Production of Bioactive Natural Products” aims to review novel advances in the development of new methods of bio-chemical production of bioactive natural products and their analogues. Topics include, but are not limited to:

- Synthetic biology tools in bio-production of natural products derivatives
- Chemical synthesis and semi-synthesis of natural products
- Modifications by biotransformation
- Alternative methods for bio-chemical production of natural products
- Processes / mechanisms of bio-chemical production

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
