

Special Issue

Production and Biomedical Applications of Bioactive Compounds

Message from the Guest Editor

The Special Issue will focus on bioactive compounds and their biomedical applications, including following aspects:

- Bioactive compound identification using metabolomics tools (chromatographic and mass spectroscopic).
- Bioactive compounds against pharmacological activities (antioxidant, antibacterial, antifungal, anticancer, antidiabetic activity, and antiviral, etc.).
- Use of nanotechnology to improve the biological delivery of natural compounds.
- Biomedical applications of nanoparticles.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
