

Special Issue

Biochar Production and Applications for Clean Industry

Message from the Guest Editors

This Special Issue will aim to collect the most advanced and cutting-edge research about the production, modification and uses of biochar. We would like to present to the scientific community the incredible potential of biochar through the contribution of the greatest expert in the field. The polyhedral nature of biochar represents a very strong advantage for spreading the biochar use across the material science field. Keywords

- biochar
- thermochemistry
- reactors
- pyrolysis
- gasification
- waste management

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
