

## Special Issue

# Study of Biodegradation and Bioremediation

### Message from the Guest Editors

This Special Issue will concentrate on highlighting timely research studies addressing the persistent pollutants and xenobiotics' biodegradation. Topics include but are not limited to:

- Pollutant and xenobiotic biodegradation;
- The influence of surfactants and biosurfactants on hydrocarbon biodegradation;
- Role of adsorption in biodegradation process;
- Enzyme and bacterial immobilization and their use in different compounds' degradation;
- Impact of pollutants on the microorganism cells;
- Physical or electrochemical methods as the support of biodegradation process.

Authors are invited and welcome to submit original research papers, reviews, and short communications.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
