Processes for Bioenergy and Resources Recovery from Biowaste

Message from the Guest Editors

This Special Issue on “*Processes for Bioenergy and Resources Recovery from Biowaste*” seeks high-quality works and topics focusing on the existing and emerging processes for bioenergy and value-added resources recovery from various biowaste streams. Potential topics include but are not limited to the following:

- Anaerobic digestion of organic waste
- Bio-electrochemical conversion of biowaste
- Microbial fermentation for liquid and gaseous biofuels production
- Production of bioplastics from organic waste
- Algal systems for waste management
- Waste-to-bioenergy
- Thermochemical conversion of waste
- Enzymatic conversion of waste

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
