

Special Issue

Bioenergy Systems, Material Management, and Sustainability

Message from the Guest Editors

This Special Issue will seek novel process systems contributions and applications associated with bioenergy systems, material management, and sustainability. The following topics are of particular interest:

- Bioenergy production and biofuels
- Bioenergy systems optimization and advanced control analysis
- Sustainability, life cycle assessment, and life cycle inventory analyses associated with biosystems
- Sustainable management and valorization of organic/biomass waste, including energy production
- Techno-economic analysis of novel routes for the sustainable utilization and reuse of biomass and waste

In addition to theoretical contributions that address the state-of-the-art in process systems engineering and sustainability, submissions that involve industrial collaborations and experimental studies are also especially encouraged.

Guest Editors

Dr. Fernando V. Lima

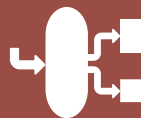

Department of Chemical and Biomedical Engineering, West Virginia University, Morgantown, WV 26506, USA

Dr. Gerardo J. Ruiz-Mercado

Center for Environmental Solutions and Emergency Response, U.S. Environmental Protection Agency, Cincinnati, OH 45268, USA

Deadline for manuscript submissions

closed (31 August 2020)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
