

## Special Issue

# Kinetic Model Systems for Biofilm Processes

### Message from the Guest Editor

This Special Issue on "Kinetic Model Systems for Biofilm Processes" aims to collect high-quality research studies addressing challenges in the broad area of biofilm kinetic models to describe the biodegradation kinetics of single or multiple substrates in the several processes. Topics include but are not limited to the following:

- Fixed biofilm model systems;
- Moving-bed biofilm model systems;
- Single species biofilm model systems;
- Multiple species biofilm model systems;
- One-stage biofilm model systems;
- Multiple-stage biofilm model systems;
- Biofilm process modeling, simulation, and control applications;
- Modeling of biochemical reaction processes;
- Aerobic and anaerobic biofilm models.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
