Biofilm Processes

Message from the Guest Editors

This Special Issue "Biofilm Processes" will include innovative research on biofilm processes for production purposes. This Special Issue will cover the most recent advances in biofilm processes, with particular regards to: 1) Fundamental and theory of biofilm processes, e.g., biofilm catalysis, novel bioreactor, modeling, simulation pilot scale, and full-scale applications. 2) Pilot-scale applications and long-term process data analysis 3) Full-scale implementation for production purposes. This issue is not restricted to a particular kind of biofilm or process or reactor. Submission of innovative processes and bioreactor concepts is highly encouraged.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
