

Special Issue

Processes for Biofuel, Biogas and Resource Recovery from Biomass

Message from the Guest Editors

This Special Issue on “Processes for Biofuel, Biogas and Resource Recovery from Biomass” seeks high-quality works and topics focusing on the existing and emerging processes for biofuel, biogas, and value-added resource recovery from a variety of biomass such as waste, crops, and wood. Potential topics include but are not limited to the following:

- Anaerobic digestion of organic waste;
- Transesterification of oil and fat;
- Esterification of vegetable and animal oils;
- Partial combustion of biomass;
- Pyrolysis of biomass;
- Hydrocracking biological oils;
- Bio-electrochemical conversion of biowaste;
- Microbial fermentation for liquid and gaseous biofuels production;
- Waste-to-bioenergy;
- Thermochemical conversion of waste;
- Enzymatic conversion of waste.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
