

Special Issue

Modelling and Optimal Design of Complex Biological Systems

Message from the Guest Editors

This Special Issue “Modelling and Optimal Design of Complex Biological Systems” aims at collecting research studies related to these important research areas. Topics include but are not limited to the following:

- Aerobic and anaerobic systems for nutrient removal;
- Bioprocesses for energy recovery;
- Biorefinery used for the production of biomolecules;
- Microalgae systems for the treatment of water and the production of biomolecules;
- Complex interconnections of biosystems for energy production.

Guest Editors

Dr. Jérôme Harmand

Dr. Alain Rapaport

Prof. Dr. Neli Dimitrova

Prof. Dr. Ivan Simeonov

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
