

## Special Issue

# Recent Advances in Electrical Power Engineering

### Message from the Guest Editors

The 22nd International Scientific Conference on Electric Power Engineering (EPE 2022) is aimed particularly at problems concerning power engineering science, research, and work experience. Thus, the conference provides a platform for the interchange of valuable information, room for discussion, and networking with industrial, academic, and research workers. The selected peer-reviewed articles will be recommended for publication in a Special Issue "Recent Advances in Electrical Power Engineering" of the journal *Processes* (ISBN: ISSN 2227-9717), which is indexed in well-established databases/archives (SCIE, Scopus, etc.). In this Special Issue, we seek advancements in electrical power technologies.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
