

Special Issue

Rationalization of Energy Consumption through the Optimization, Audit and Control of Processes

Message from the Guest Editors

Based on these ideas, we are inviting authors to submit original research and review papers on a broad range of topics to this Special Issue on “Rationalization of Energy Consumption through the Optimization, Audit, and Control of Processes”. Experimental and modeling works focused on process optimization and energy metering in a wide variety of application fields as well as reviews or technical notes in terms of the synergy between conventional and renewable energy are highly welcome.

- energy consumption rationalization
- process optimization
- audit and control
- energy metering
- fossil and renewable energy hybridization

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
