

Special Issue

Novel Processes for Development of Fermentation-Based Products

Message from the Guest Editors

This Special Issue will focus on emerging fermentation technologies as well as the future of developing products that will have high value in world markets. Topics include, but are not limited to the following:

- Development of new fermentation processes:
 - Novel fermentation processes in pharmaceuticals
 - Novel fermentation processes in cosmetics
 - Novel fermentation processes in food industries
 - Novel fermentation processes in agriculture
 - Novel fermentation processes in the energy sector
- Development of new fermented products
- Development of new fermenter designs
- Modeling and simulation of fermentation processes
- Development of intensified fermentation processes

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy
