

Special Issue

Experimental and Numerical Study of Flame Propagation of Biofuels/Oxidizers/Inert Mixtures

Message from the Guest Editor

This Special Issue aims to present high-quality research studies addressing challenges in the broad area of flame propagation of biofuels/oxidizers/inert mixtures. Recent research involving experimental and numerical studies of burning velocities of biofuels/oxidizers/inert mixtures are highly encouraged but are not limited to this.

Guest Editor

Dr. Maria Mitu

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
