Special Issue

Biotechnological Food-Oriented Processes

Message from the Guest Editors

The application of biotechnological derived processes for the creation of novel food formulations with high consumer acceptance, improved microbial stability, enriched with health-promoting bioactive compounds and improved sensorial qualities have opened numerous opportunities for the food industry. Based on this consideration, this Special Issue, entitled "Biotechnological Food-oriented Processes", aims to curate advances in the development of novel food formulations using several biotechnological approaches. This Special Issue aims to collect and publish recent reviews and research articles related to Extraction of bioactive molecules, innovative and emerging food and by-products processing methods, fermented food products, structural and characterisation of food-derived bioactive compounds. bioactivity evaluation and food waste and by-products valorisation.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
