Special Issue

Screening of Bioactive Compounds from Food Processing Waste

Message from the Guest Editors

In this Special Issue, we are encouraging the submission of manuscripts related to food processing waste, including plant, animal and marine by-products. We are expecting manuscripts reflecting the highperformance liquid chromatography (HPLC), ultrahighperformance liquid chromatography (UPLC) and gas chromatography (GC) techniques. In short, we are highly interested in and encourage manuscripts related to food processing waste, underutilized species and processing discards for production of value-added products.

Keywords:

- Food processing waste
- Food Processing techniques
- Extraction processes
- Characterisation techniques
- Marine Processing waste
- Food bioactive compounds
- Advance analytical applications
- Purification and optimisation processes

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
